

Semico Clean

Semico Clean is cleaning solution that simplifies relatively complicated process of Semiconductors and LCDs manufacturing process. Time & Cost savings are expected.

Containers : 5kg/20kg

Features

1. Strong degreasing treatment (Na is not contained)
2. Can dissolve heavy metals like nitride acid and hydrogen peroxide solution
3. Slightly etches silicon and silicon oxide
4. Surface treated with Semico Clean is highly hydrophilic
5. Shortens the entire cleaning process due to high degreasing and metal ion effect
6. Reduces particles and remove natural oxidation layers
